

TIXO STAINLESS

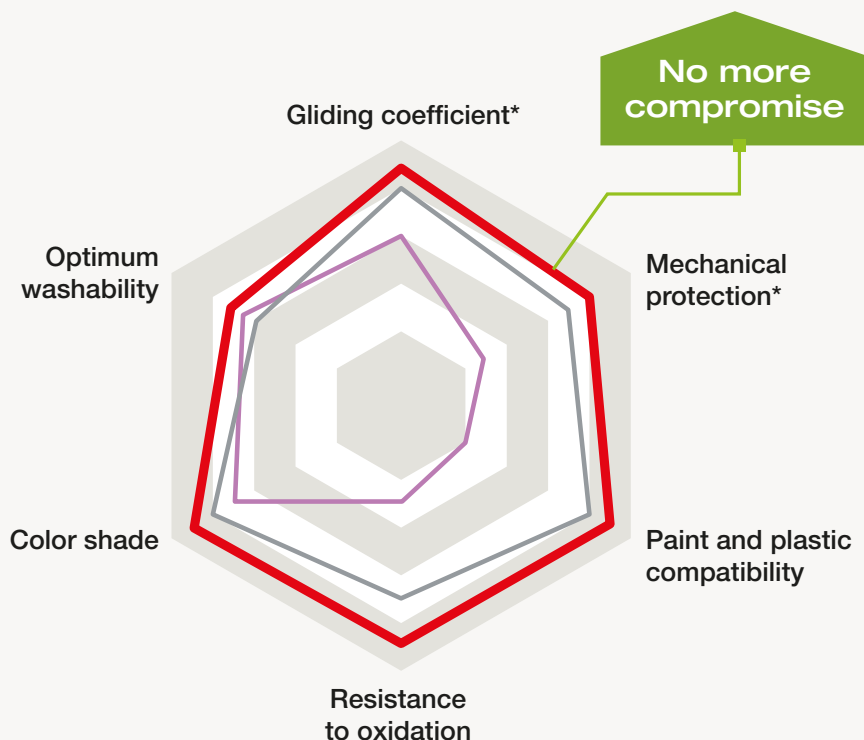

High performance scorable oil for the lubrication of needles, needle beds, sinkers and tuck cams on small diameter knitting machines

TIXO STAINLESS

was specially designed to combine emulsifiable performance with today's growing technical requirements for small diameter knitting machines.

WHEN PERFORMANCE MEETS PROTECTION

◆ TIXO STAINLESS
 ◆ Standard Product
 ◆ Market Reference

*Based on DIN 62136 Tribological Tests (Gliding Coefficient, Wear Depth, Wear Diameter, Maximum Load)

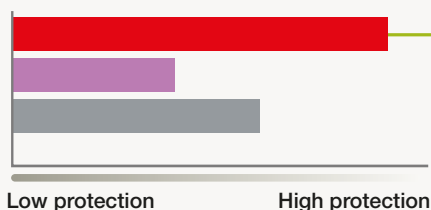

CUSTOMER BENEFITS

- > REACH and OEKO-TEX® standard 100 label compliant
- > Associates scourability and machine protection
- > Compatible with elastane fibers

PROVEN EFFICIENCY THROUGH MECHANICAL PROTECTION

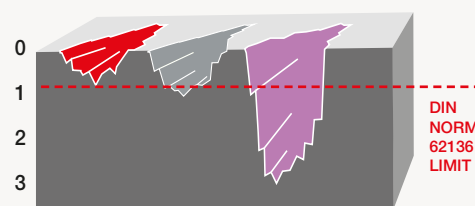

Protection against corrosion*

*Evaluation made according to the DIN 51360 test standards

- ◆ TIXO STAINLESS
- ◆ Standard Product
- ◆ Market Reference

Wear resistance

High level protection for your machine

TIXO STAINLESS improves wear protection, maximizing machine parts' shelf life by keeping an adequate and regular running temperature, thus limiting maintenance costs. It is harmless towards machine paints, plastic and electronic components, **protecting your machine from early damage and deterioration.**

STANDARDS AND APPROVALS

- ISO 9001
- ISO 14001
- REACH compliance
- OEKO-TEX® compliance
- DIN 62136 SRV TEST

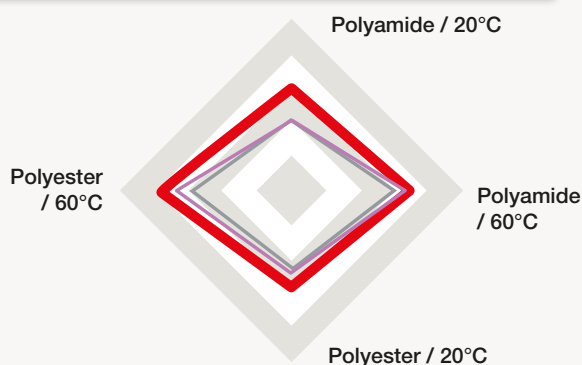

“After several months of trials with **TIXO STAINLESS** in hosiery machines we managed to observe large progress on machine cleaning, improving cold starting conditions. Its colourless/odourless characteristics and good scourability performance allowed us to reduce the risk of dyeing flaws in our knitted fabrics, which is a key requirement for our customers' satisfaction.”

Maintenance manager for an international hosiery knitting group

HIGH SCOURABILITY PERFORMANCE

TIXO STAINLESS offers good scourability both at high and low temperatures through conventional washing processes.

- ◆ TIXO STAINLESS
- ◆ Standard Product
- ◆ Market Reference

Did you know washability is not always better at high temperature ? **TIXO STAINLESS** has been specially formulated to meet very high washability requirements through low-temperature, less energy-consuming washing processes.

STRONG OXIDATION RESISTANCE*

*Artificial ageing test based on the Gardner colour scale

TIXO STAINLESS shows high oxidation resistance which results in better mechanical performance as well as good colour stability.
